

## Healthy Reading Collection for Young People

Life can be full of things that can upset you or make you feel stressed. These can range from simple things like losing your mobile phone or bigger things like body image or being bullied.

The Healthy Reading collection of books and resources for young people aged 8–13 years has been chosen by young people and health professionals. It has useful information on topics such as anxiety, depression and eating disorders and difficult life pressures like exam stress and relationship break up.

Some of the books suggest self-help techniques which can help boost confidence and help you cope with difficult feelings and experiences. As well as information books, there are also graphic novels and fiction stories that deal with issues that can affect young people. Reading about other people's experiences and feelings can often help you to better understand your own.

The titles are available for anyone to borrow free from their local library. The titles listed in this leaflet are just a selection of what is available. See all titles and more information at: [www.elament.org.uk/self-help-resources/healthy-reading/](http://www.elament.org.uk/self-help-resources/healthy-reading/)
